Wax & Grease Remover

# SXA330

Aerosol

SXA330 Wax & Grease Remover is specifically designed to remove waxes, grease, silicones, road tar, engine oil, overspray, adhesives and other contaminants. It can be used on bare metal, primers, or automotive finishes. SXA330 is packaged in aerosol cans and is ready-to-use.

### Application Data

**SXA330 Wax & Grease Remover:**

- Shake can before use.
- Apply a generous amount of **SXA330** to a clean white cloth or directly to the surface.
- Wipe surfaces to be cleaned before and after sanding.
- The initial application will float contaminants to the surface, and the second wipe, using a separate clean dry cloth, will remove contaminants.
- For maximum results, wipe the surface dry while it is still wet, using a clean white cloth in one direction. This will eliminate the smearing of contaminants.

**CAUTION:** SXA330 should not be used on plastic substrates.

**Technical Data:**

Product	VOC (lbs./US Gal.)	Flash Point PMCC
SXA330	5.8	<0°F for aerosols

**Can Disposal:**

When material in can is spent, turn can upside down and depress the nozzle until all propellant is exhausted. Place empty can or cans that are no longer to be used into properly labeled metal containers. The waste containers should be managed as a hazardous waste pursuant to local, state and federal regulations.

**Important:**

Improper spray technique may result in a hazardous condition. Follow directions for respirator use. Wear eye and skin protection. Observe all applicable precautions.

---

## Application Data

---

**See Material Safety Data Sheet and Labels for additional safety information and handling instructions.**
