

# WATER BANDIT™

## Synthetic Chamois

### AUTOMOTIVE:

27" x 17" (3.19 square feet)

Part No.: 11066

12/case in Tubes

Net Wt. 6 lbs.

### DESCRIPTION:

WIZARDS® WATER BANDIT™ is a soft, gentle all purpose, synthetic chamois. Its ripple design is molded around a tough mesh lining that provides extra durability as well as elasticity. WATER BANDIT'S™ softness originates from a unique open-cell polyvinyl material that produces an extremely high water absorption rate plus excellent water retention, making it virtually drip-free. These outstanding qualities will soon render traditional cellulose and polyurethane chamois obsolete.

### BENEFITS:

WATER BANDIT™ is recommended for washing, wiping, cleaning and drying virtually any surface. Its high absorption rate and retention of liquids makes it quick and easy for auto, cycle, marine, truck, home and industrial use. No smears, streaks or scratches. The WATER BANDIT™ is lint free, will absorb many times its weight in water, and is very easy to wring out.

### FEATURES

- The softest synthetic chamois available.
- Gentle enough for all custom paint.
- Super absorbent – many times greater than old-fashioned chamois.
- Pulls ALL water, no residue left behind.
- Lint free, no smears, streaks or scratches.
- Super durable, won't break apart.
- Easy to wring out and is drip free.
- Resistant to grease, oil and detergents.
- Suitable for any application.

### HOW TO USE:

The WATER BANDIT™ can be used like a regular chamois but for best results, keep WATER BANDIT™ folded, not loose, and stroke in one direction across surface (like a squeegee). Flip to the other side and continue drying, wringing out by twisting the WATER BANDIT™ as needed.

To preserve in perfect condition, thoroughly rinse with water and wring out the WATER BANDIT™ after using. Keep the WATER BANDIT™ moist in its original package, ready to reuse. To reuse, simply rinse with water again, wring out and fold. To clean (and minimize bacterial growth), the WATER BANDIT™ should be machine washed occasionally, with soap, at up to 160°F. Do not bleach or put in the dryer.
