

## FILLING CHART

Refer to Operators Manual for detailed filling instructions.

| Part # | Item        | Net Wt. of Solvent/Propellant | Suggested Strokes* (Paint in grams/oz) | Total Package Wt. | Label Wt.      |
|--------|-------------|-------------------------------|--|-------------------|----------------|
| 45106  | DV6 (6oz)   | 85gm / 3oz                    | 6-8 (51gm / 1.8oz)                     | 136gm / 4.75oz    | 128gm / 4.5oz  |
| 45112  | DV12 (12oz) | 164gm / 5.8oz                 | 9-11 (98gm / 3.5oz)                    | 262gm / 9.25oz    | 255gm / 9.0oz  |
| 45116  | DV16 (16oz) | 216gm / 7.6oz                 | 11-13 (130gm / 4.6oz)                  | 347gm / 12.25oz   | 340gm / 12.0oz |
| 45216  | FV16 (16oz) | 216gm / 7.6oz                 | 11-13 (130gm / 4.6oz)                  | 347gm / 12.25oz   | 340gm / 12.0oz |
| 35316  | AB16 (16oz) | 201gm / 7.1oz                 | 12-14 (146gm / 5.15oz)                 | 347gm / 12.25oz   | 340gm / 12.0oz |

\*Weigh can before and after filling to ensure correct weight.

MasterBlend is designed to accommodate most solvent-blend systems. Some lacquers may require reduction with lacquer thinner prior to Omni-Filling. As a starting point, we recommend 5 parts lacquer to 1 part thinner by volume. Always check the first can for application. If the spray is too coarse, additional reduction is in order. Make sure that you Omni-Fill the specified amount required for the can size of the reduced material for the optimum aerosol package.

## ACCESSORIES

### Also available:

- #14610 Plastic Liner
- #14628 Pressing Tool
- #14633 Ball-check Ball (6 pack with O-Ring)

### FEMALE CAN ADAPTER

For use with One-Blend and MasterBlend female aerosol cans.

- Converts Omni-Fill® 15, Omni-Fill® 35 and Omni-Fill® 100 for use with One-Blend and MasterBlend female cans
- Easy to use, no tools required
- Fast, efficient filling accessory

### VALVE CLEARING TOOLS

The valve clearing device enables you to clear the spray mechanism before seating the actuator. This accessory speeds up and simplifies the finishing process when a number of cans are being filled.

- Prevents clogging
- Clears valve stem

## Custom Aerosol Filling System

**CHOOSE THE RIGHT FILL FOR YOU.**  
From Large Volume Custom Colors to  
Single Cans of Touch-Up Paint

From one can to 100 cans, fill your own aerosols easily and economically with the Omni-Fill® Aerosol Filling System. Each Omni-Fill System gives you exact, custom matched touch-up paints precisely when you need them. These systems are versatile, allowing you to change from one color to another quickly. They're easy to use and maintain, with a few simple steps.

### OMNI-FILL® 35

Omni-Fill® 35 – simple to operate, money-saving system for filling aerosol cans with solvent-based, air-dry enamels, lacquers, vinyls and acrylics.

- Automatic/pneumatic
- Convenient, easy set up
- Fill up to 6 cans quickly

#B00035

### OMNI-FILL® 11-EZ

Omni-Fill® 11-EZ manual filling system is ideal for filling a few aerosol cans.

- Hand operated
- Convenient, easy set up
- Economical

#B11011

### SUPER OMNI-FILL® 100

Super Omni-Fill® 100 – simple to operate. The money-saving system for filling large quantities of aerosol cans with solvent-based, air-dry enamels, lacquers, vinyls and acrylics.

- The most advanced aerosol filling system on the market
- Automatic
- Economical
- Convenient, easy set up
- Fill up to 24 cans quickly
- Self-lubricating

#B10000

### OMNI-FILL® 15

Omni-Fill® 15 – The universal hand pump. The money-saving system for filling aerosol cans with your solvent-based, air-dry enamels, lacquers, vinyls and acrylics.

- Hand operated
- Convenient easy set up
- Simple operation

#B15015

# OMNI-PAK®

## Custom Aerosol Cans

MASTER YOUR FILLING REQUIREMENTS. Whether you Need Premium Valving or Fast Economical Filling, Omni-Pak® has the Right Can.

### MasterBlend EZ TOUCH®

• **Danvern EZ Touch® Fanspray® Nozzle:**

- Produces a smooth, uniform fanspray finish
- Minimizes runs, drips and overspray
- 20% greater coverage than conventional actuator
- Rotating valve nozzle changes spray pattern
- 50% less finger fatigue than standard valve

• **Premium formulations for solvent-based:**

- Enamels
- Lacquers
- Vinyls
- Acrylics

• **Available in:**

- 16oz., 12oz. and 6oz. aerosol cans

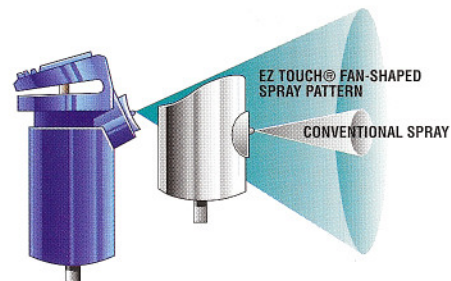

• **Male valve**
